SERVICES

WELCOME TO THE **DIAMOND** SMILE FAMILY

PORCELAIN VENEERS

REGULAR PRICE: \$245 USD EACH

Porcelain veneers are thin ceramic sheets that are placed on the front of your teeth, designed to improve the appearance of your smile quickly and effectively. This treatment is ideal for correcting imperfections such as:

- Stained or discolored teeth.
- Chipped or worn teeth.
- Slight misalignments or gaps between teeth.
- Teeth with an irregular shape.

CHARACTERISTICS:

- they do not stain
- they last from 20 to 15 years
- they are very resistant
- they are made in 4 or 5 days
- their final appearance is that of natural teeth.

IMPLANTS PLUS CROWNS

REGULAR PRICE: \$1,400 USD EACH

A **dental implant** is a small titanium screw that is inserted into the jawbone or maxilla to replace the root of a lost tooth. A crown, bridge or prosthesis is placed on top of this implant, restoring the function and appearance of a natural tooth. Dental implants are a long-lasting and stable solution for replacing teeth, helping to maintain a healthy and functional smile.

For this job you must make two visits to our office:

- **First visit:** we place the abudment and leave a temporary tooth during the 6 months of recovery
- **Second visit:** we place the definitive crown

This process is ideal so that your implants do not fail and you have a perfect smile

PORCELAIN **CROWNS**

REGULAR PRICE: \$400 USD EACH

A **dental crown** is a cap or "cover" that completely covers a damaged or weakened tooth, restoring its shape, size, and function. It is used to protect fractured, worn, or root canal treated teeth and is made from durable materials such as porcelain or zirconium. Crowns not only strengthen the tooth, but also improve its cosmetic appearance, providing a long-term solution.

Remember that with us root canal treatments are included in the price of your crowns if necessary.

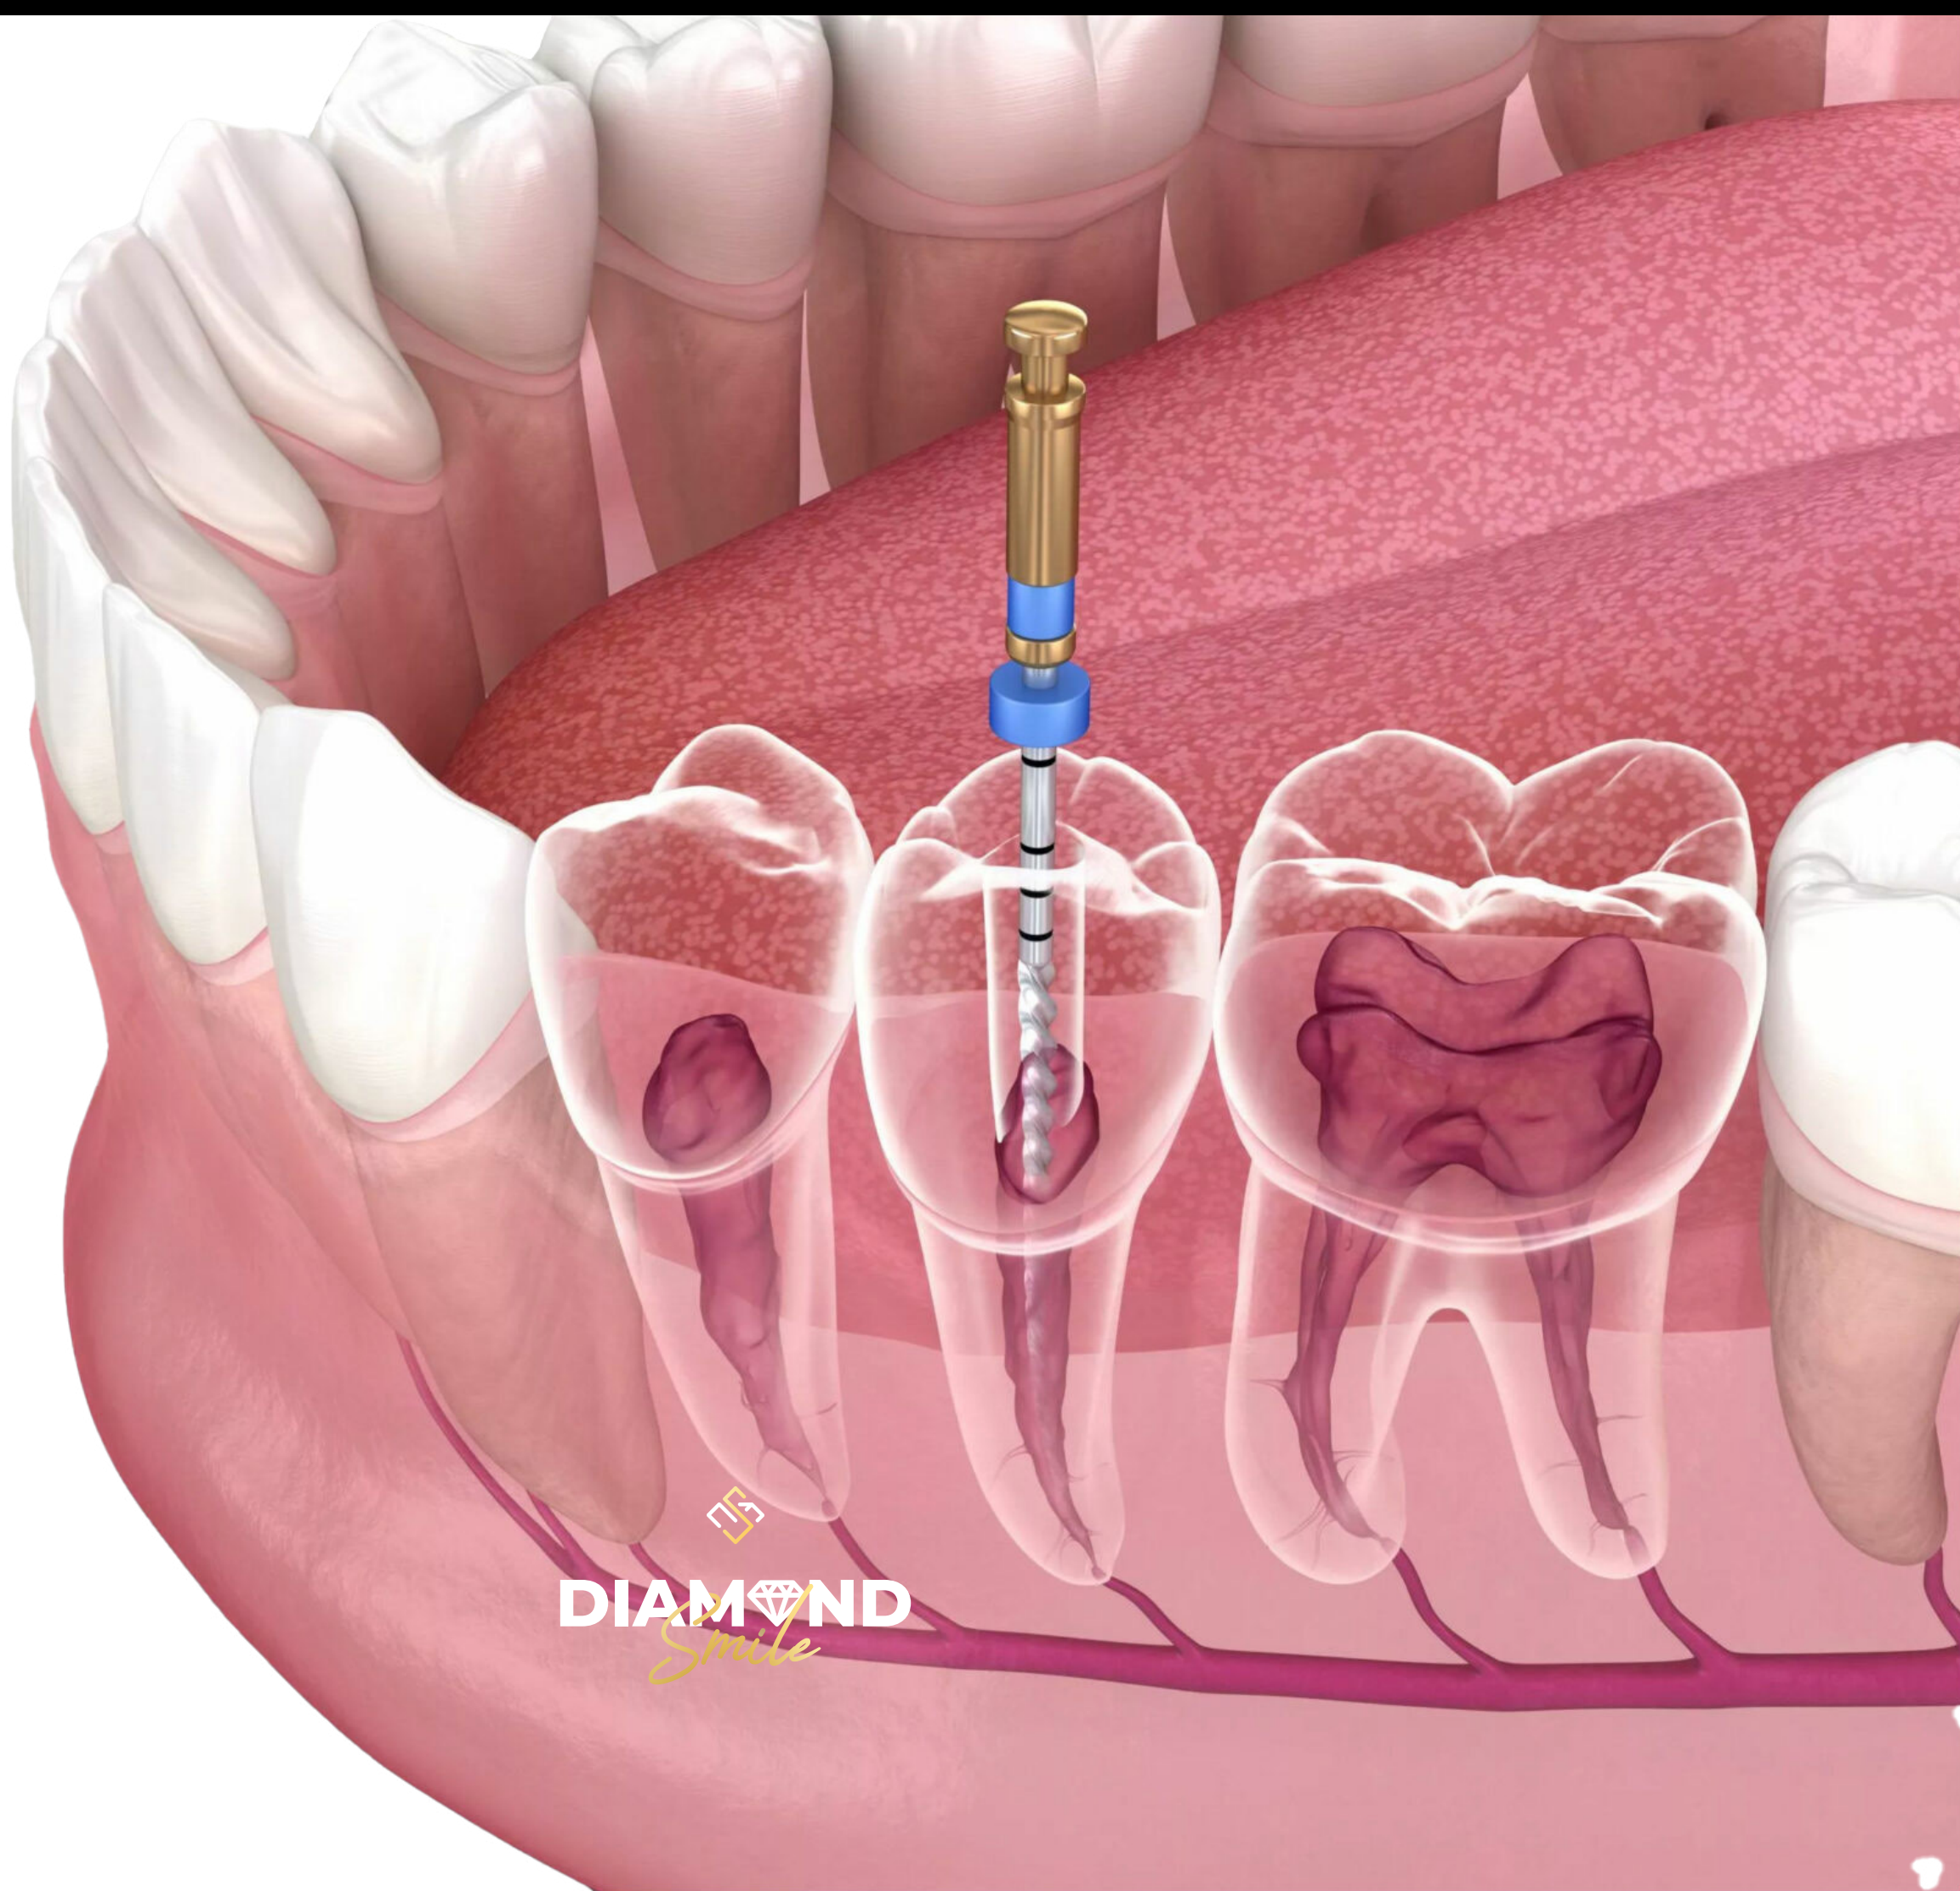

ROOT CANALS

A root canal is a dental procedure performed to remove infected or damaged pulp from a tooth. During the treatment, the inside of the tooth is cleaned and disinfected, filled with a special material, and sealed to prevent future infections. This procedure allows the natural tooth to be saved, eliminating pain and avoiding the need for extraction..

In our clinic we will have a specialist who has the most advanced equipment and will determine if it is necessary to perform your root canal.

REGULAR PRICE: \$150 TO 250 USD EACH

FIXED ***BRIDGE***

**REGULAR PRICE: \$1,200 USD EACH
FIXED BRIDGE X 3 CROWNS**

A dental bridge is a fixed prosthesis used to replace one or more missing teeth. It consists of crowns on the teeth adjacent to the empty space (abutment teeth) and a false tooth (pontic) that takes the place of the missing tooth. The bridge restores both the function and appearance of the teeth, helping to maintain dental alignment and improve the bite.

Remember that this is the quickest solution but a dental implant will always be better.

LIP FILLERS

REGULAR PRICE: \$350 USD

Lip fillers are hyaluronic acid injections used to increase the volume of the lips, improve their shape and soften the lines around the mouth. It is a non-invasive aesthetic treatment that provides immediate results, giving the lips a fuller and more defined appearance.

For this job you must make two visits to our office:

Veneers will always look better accompanied by beautiful lips.

DIAMOND

DIAMONDS

FOR TRUE DIAMOND LOVERS

REGULAR PRICE: \$200 USD EACH (1.75 PTS)

REGULAR PRICE: \$250 USD EACH (2 PTS)

Diamond veneers are inlays of small diamonds or precious stones placed on dental veneers to give a touch of luxury and sparkle to the smile. This procedure combines dental aesthetics with jewelry, allowing teeth to be personalized with an exclusive and striking design.

With your diamonds you will receive a certificate of authenticity and quality.

DIAMOND
Smile

A close-up, grayscale photograph of a person's face, focusing on the forehead and eye area. A Botox syringe is visible on the right side of the frame, with its needle pointing towards the skin. The text "BOTOX SYRINGES" is overlaid in the center.

BOTOX ***SYRINGES***

Botox in the upper, lower and even neck areas is used to relax muscles and reduce the appearance of wrinkles. In the upper third of the face, it is applied to areas such as the forehead, between the eyebrows and crow's feet to soften expression lines. In the lower third, it can be used to relax the chin, lines around the mouth and improve the contour of the jaw. In the neck, Botox helps reduce vertical bands and tighten the skin, offering a rejuvenated and smooth appearance.

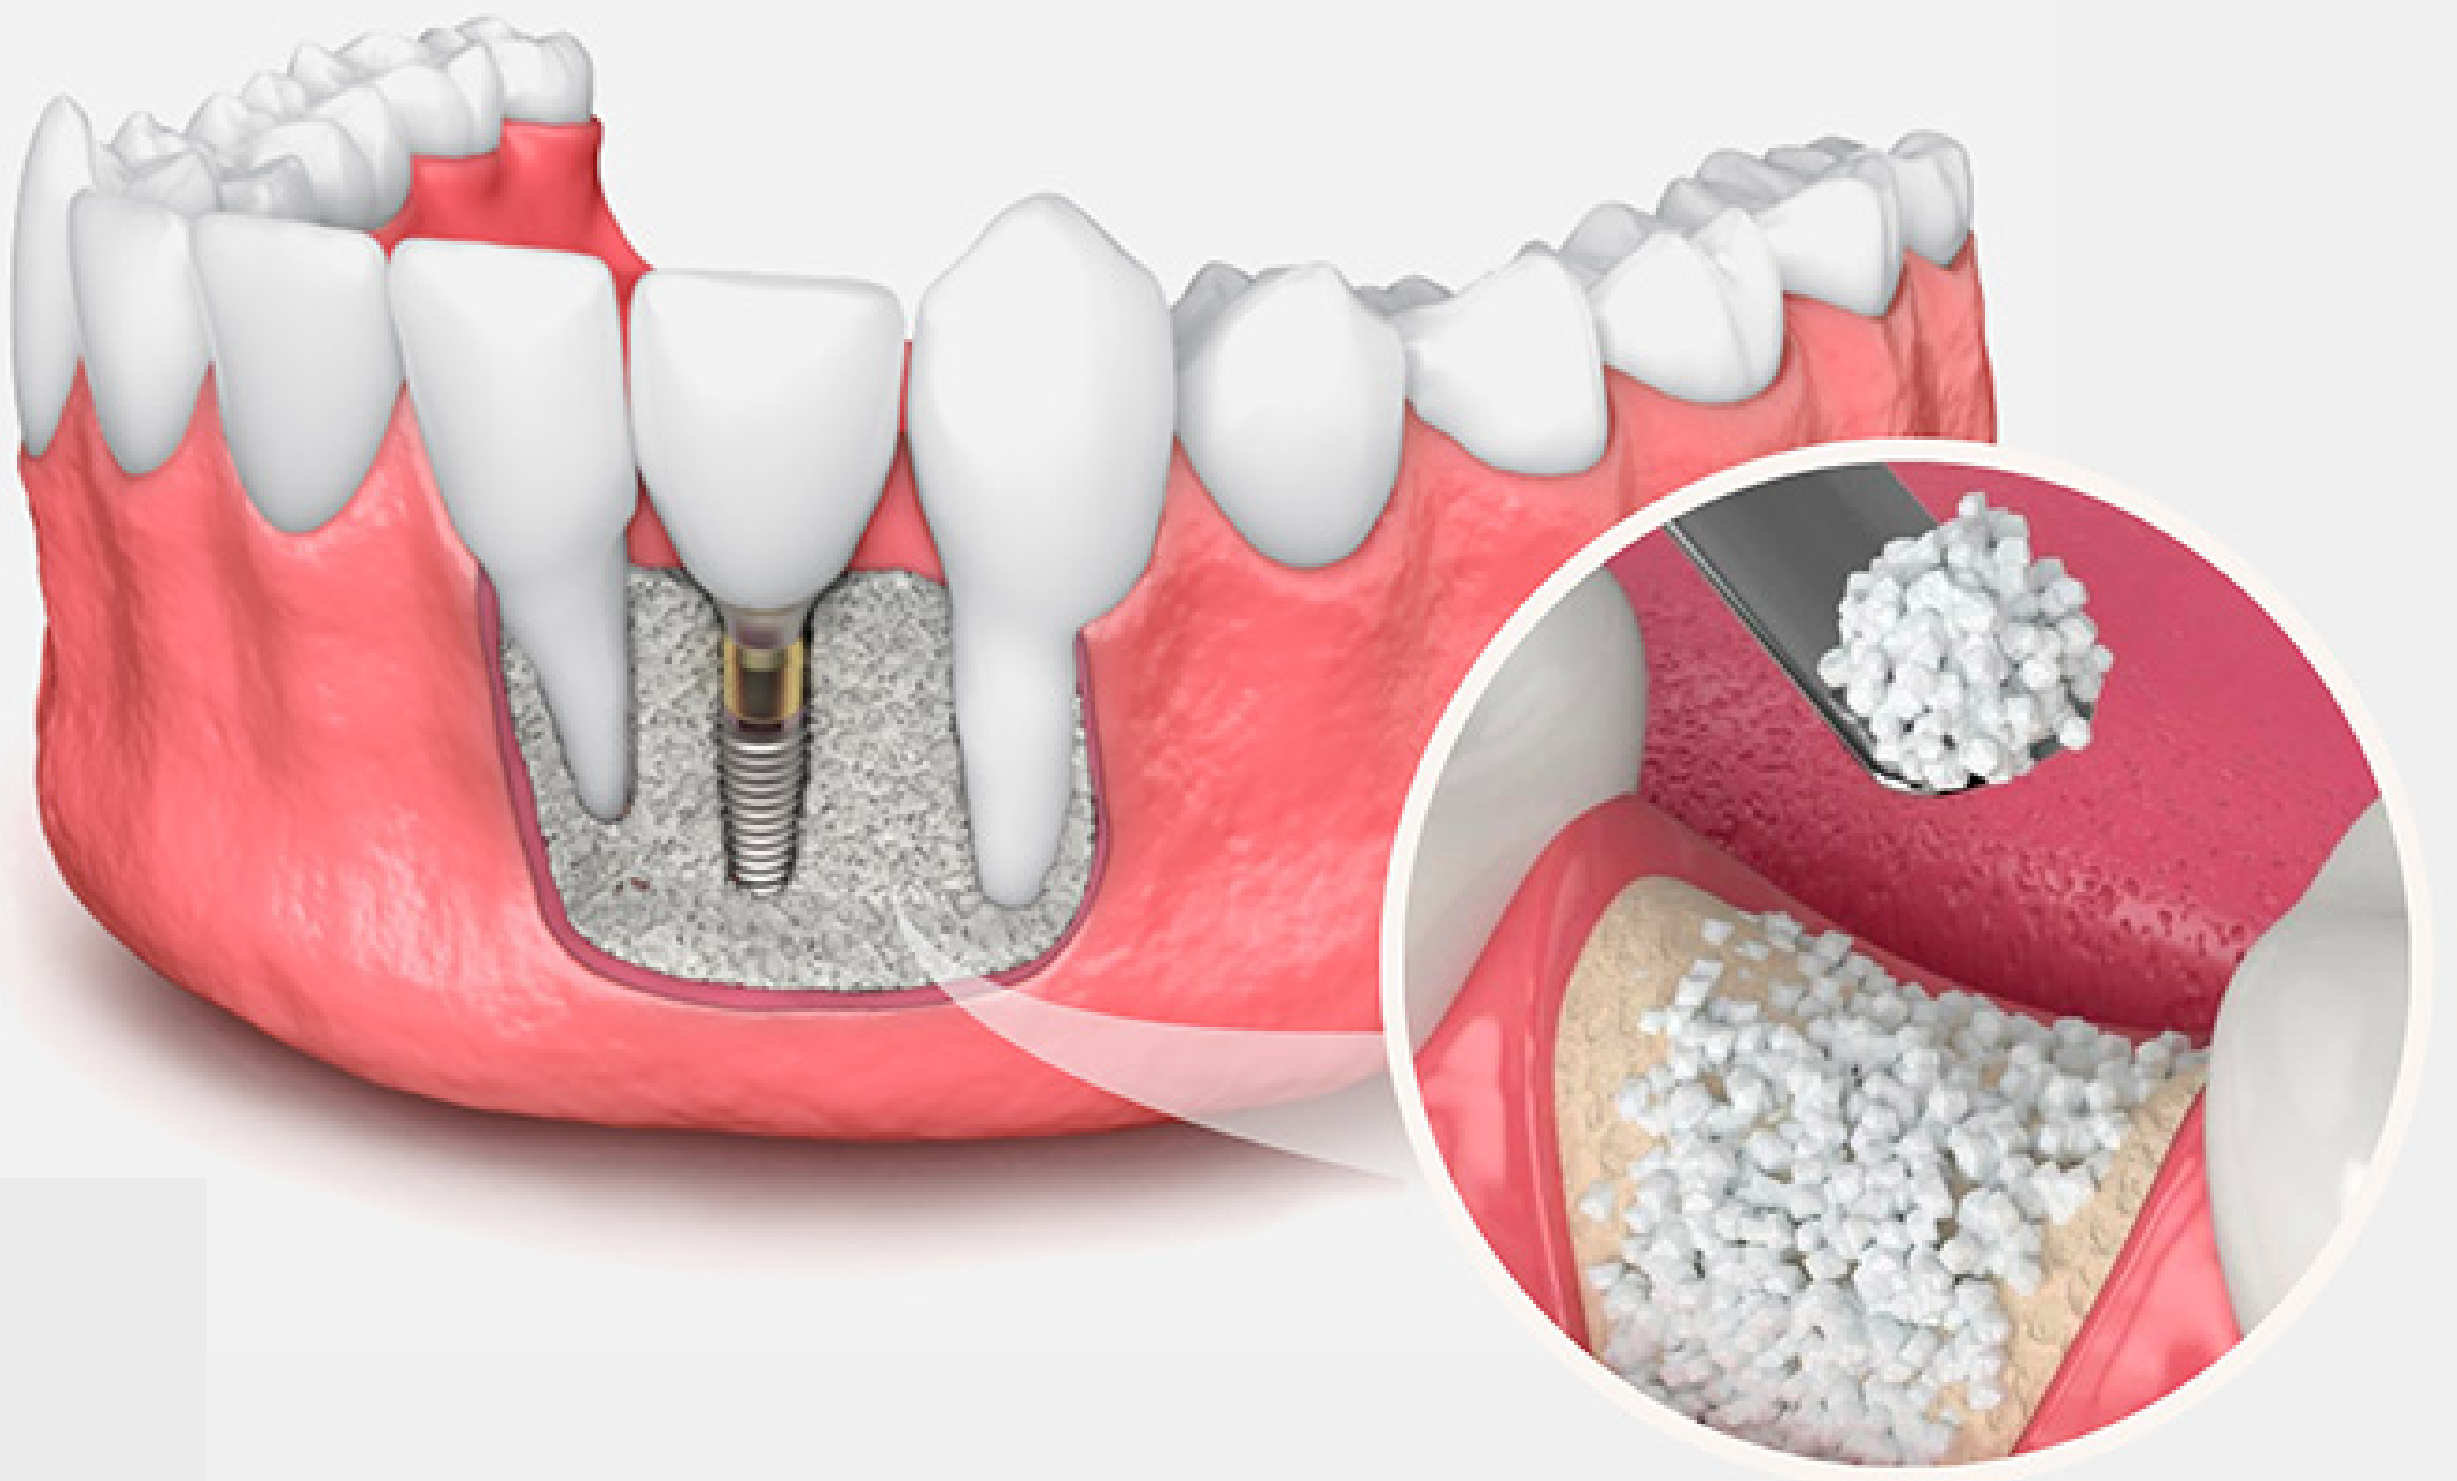

CHANGE OF FILLINGS

THE PRICE DEPENDS ON THE DEPTH OF THE OLD FILLING AND THE CONDITION IT IS IN. THIS WILL BE DETERMINED BY X-RAYS.

The treatment of changing grey fillings to white consists of replacing the old amalgam fillings (grey) with tooth-coloured composite resins (white). This procedure improves dental aesthetics, as the new materials blend naturally with the rest of the teeth, providing a more uniform and discreet appearance.

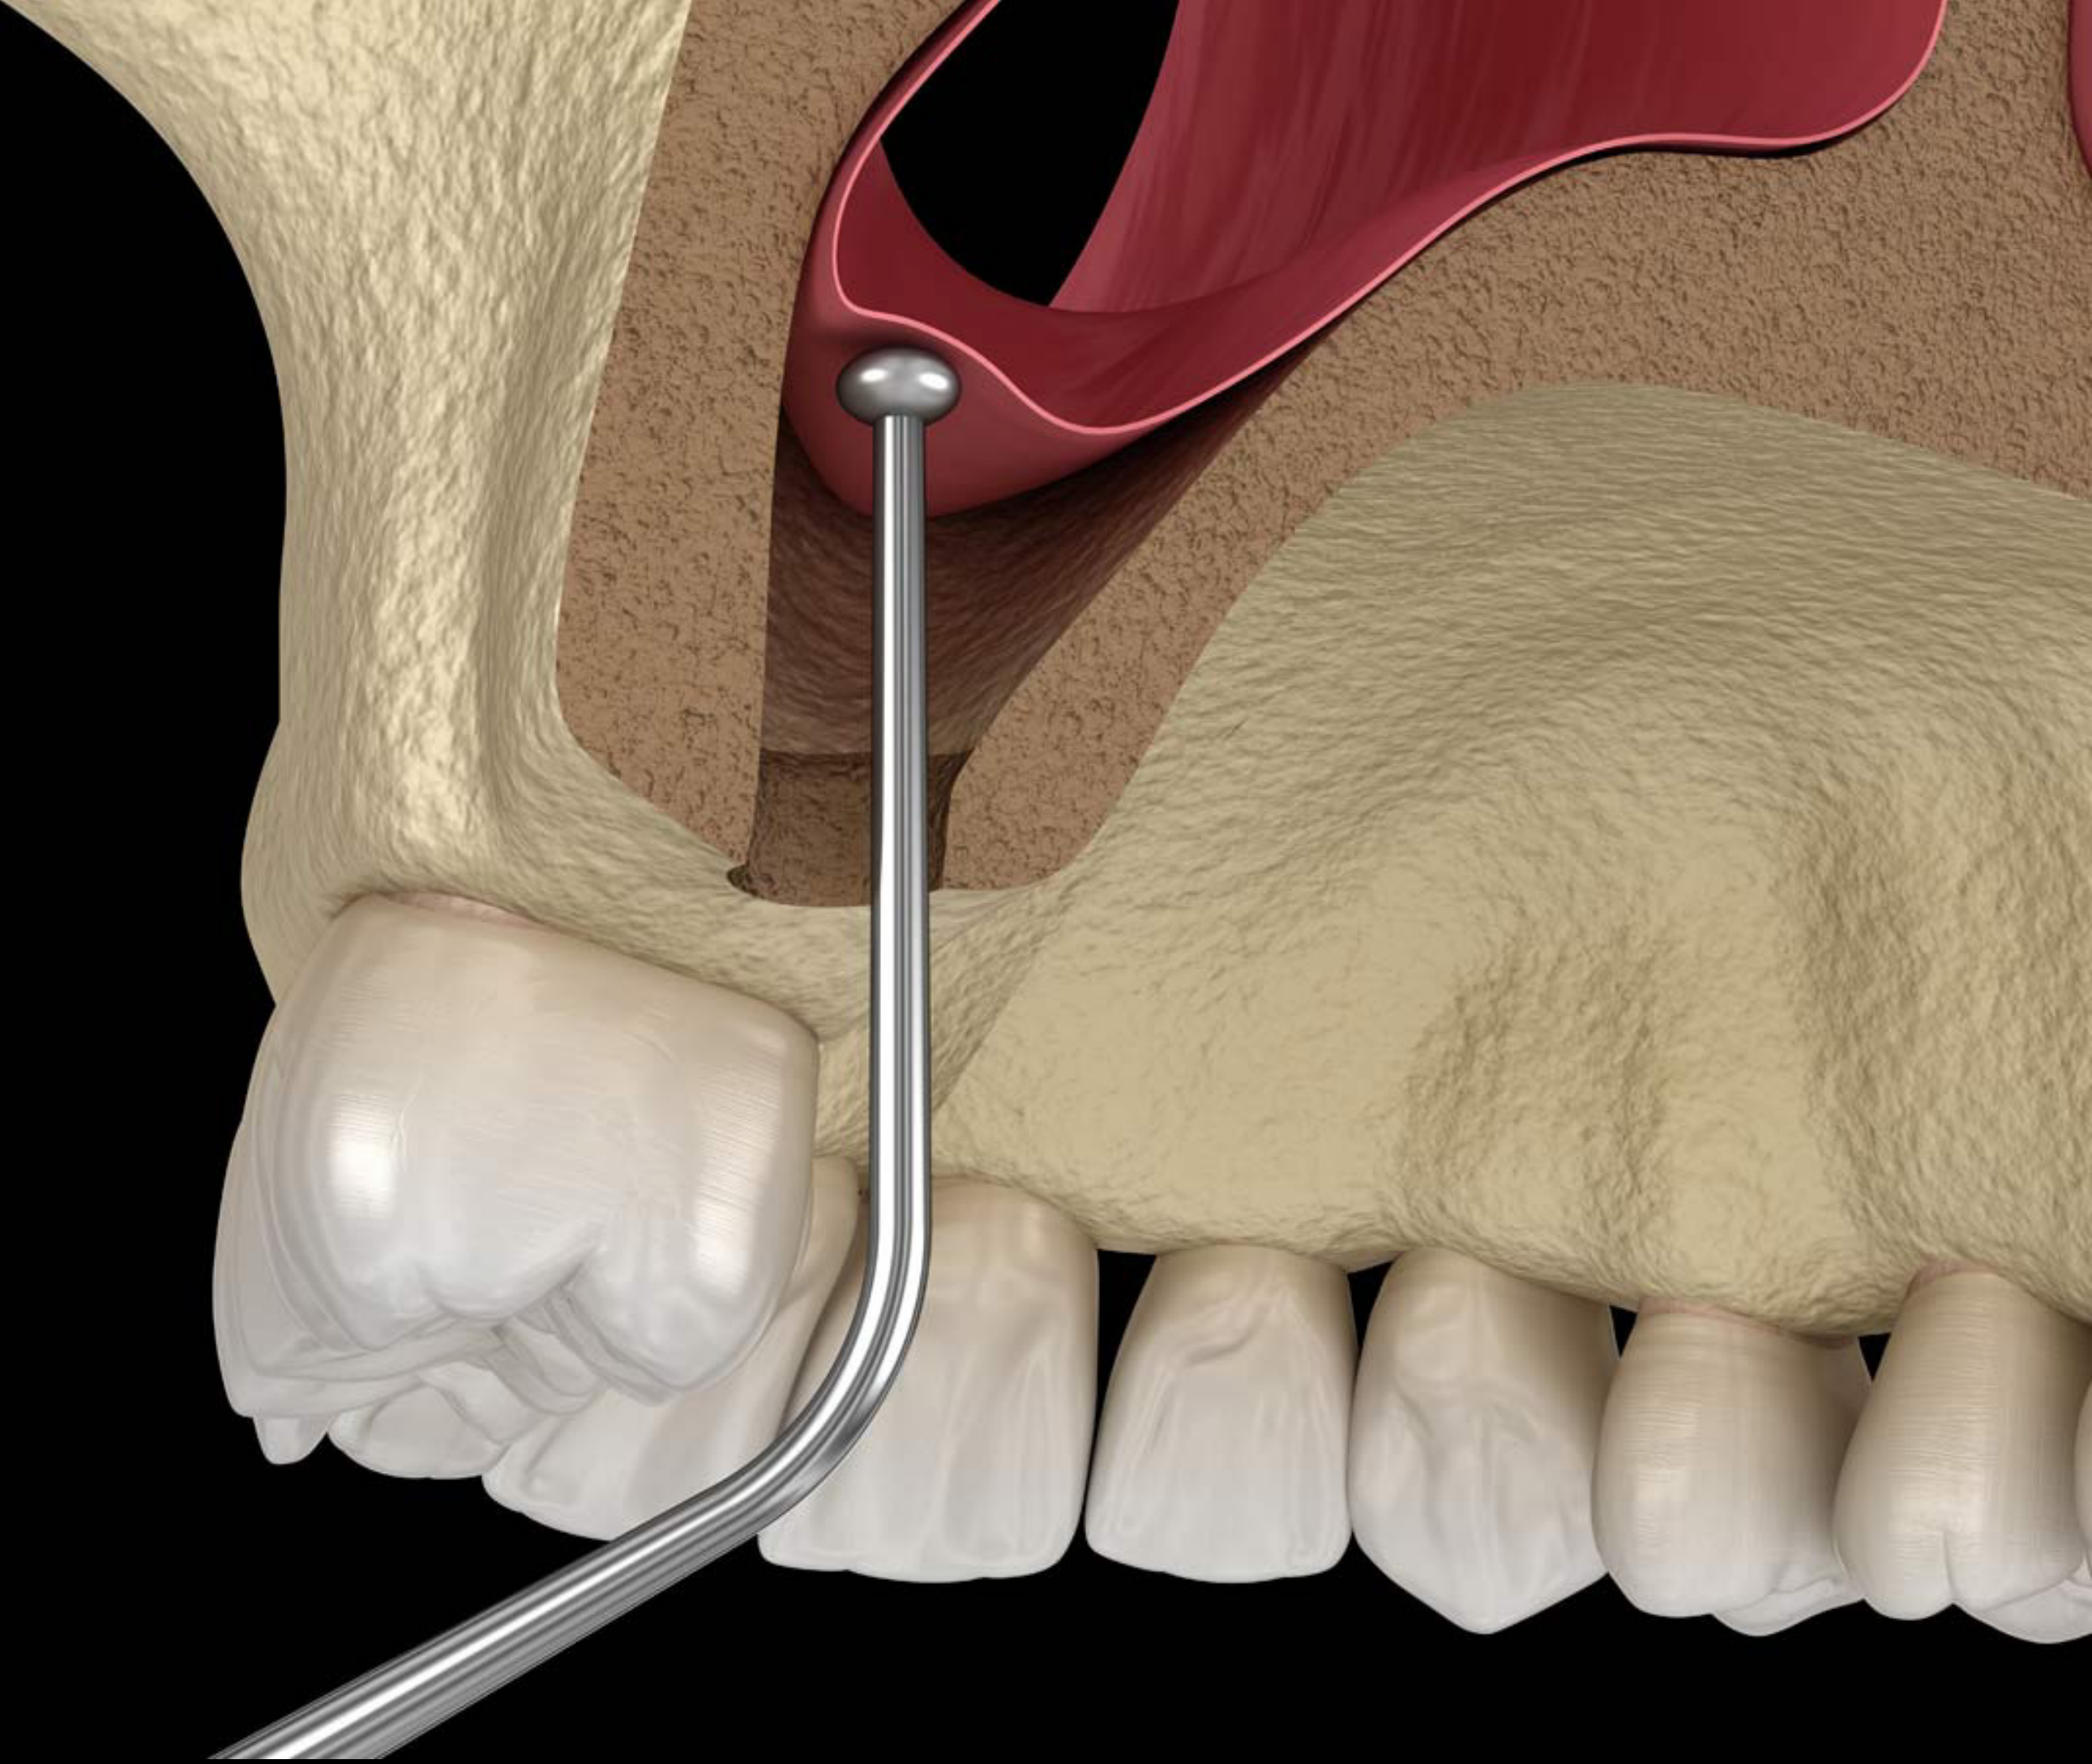

BONE GRAFT

REGULAR PRICE: \$500 USD EACH

A root canal is a dental procedure performed to remove infected or damaged pulp from a tooth. During the treatment, the inside of the tooth is cleaned and disinfected, filled with a special material, and sealed to prevent future infections. This procedure allows the natural tooth to be saved, eliminating pain and avoiding the need for extraction..

In our clinic we will have a specialist who has the most advanced equipment and will determine if it is necessary to perform your root canal.

BONE GRAFTING WITH SINUS LIFT

REGULAR PRICE: \$700 USD EACH

Bone grafting with sinus lift is a procedure in which the maxillary sinus membrane is elevated and bone material is placed into the space created. This treatment is performed when there is bone loss in the back of the upper jaw, providing the bone height needed to safely and effectively place dental im-

GUM CONTOURING

REGULAR PRICE: \$250 USD EACH

Gum contouring is an aesthetic procedure that reshapes the gum tissue to improve the appearance of the smile. It is used to correct uneven or excessively visible gums (gummy smile), achieving a balance between the gums and teeth, resulting in a more symmetrical and aesthetic smile.

If you take the special package with the veneers, the gum contouring is free.

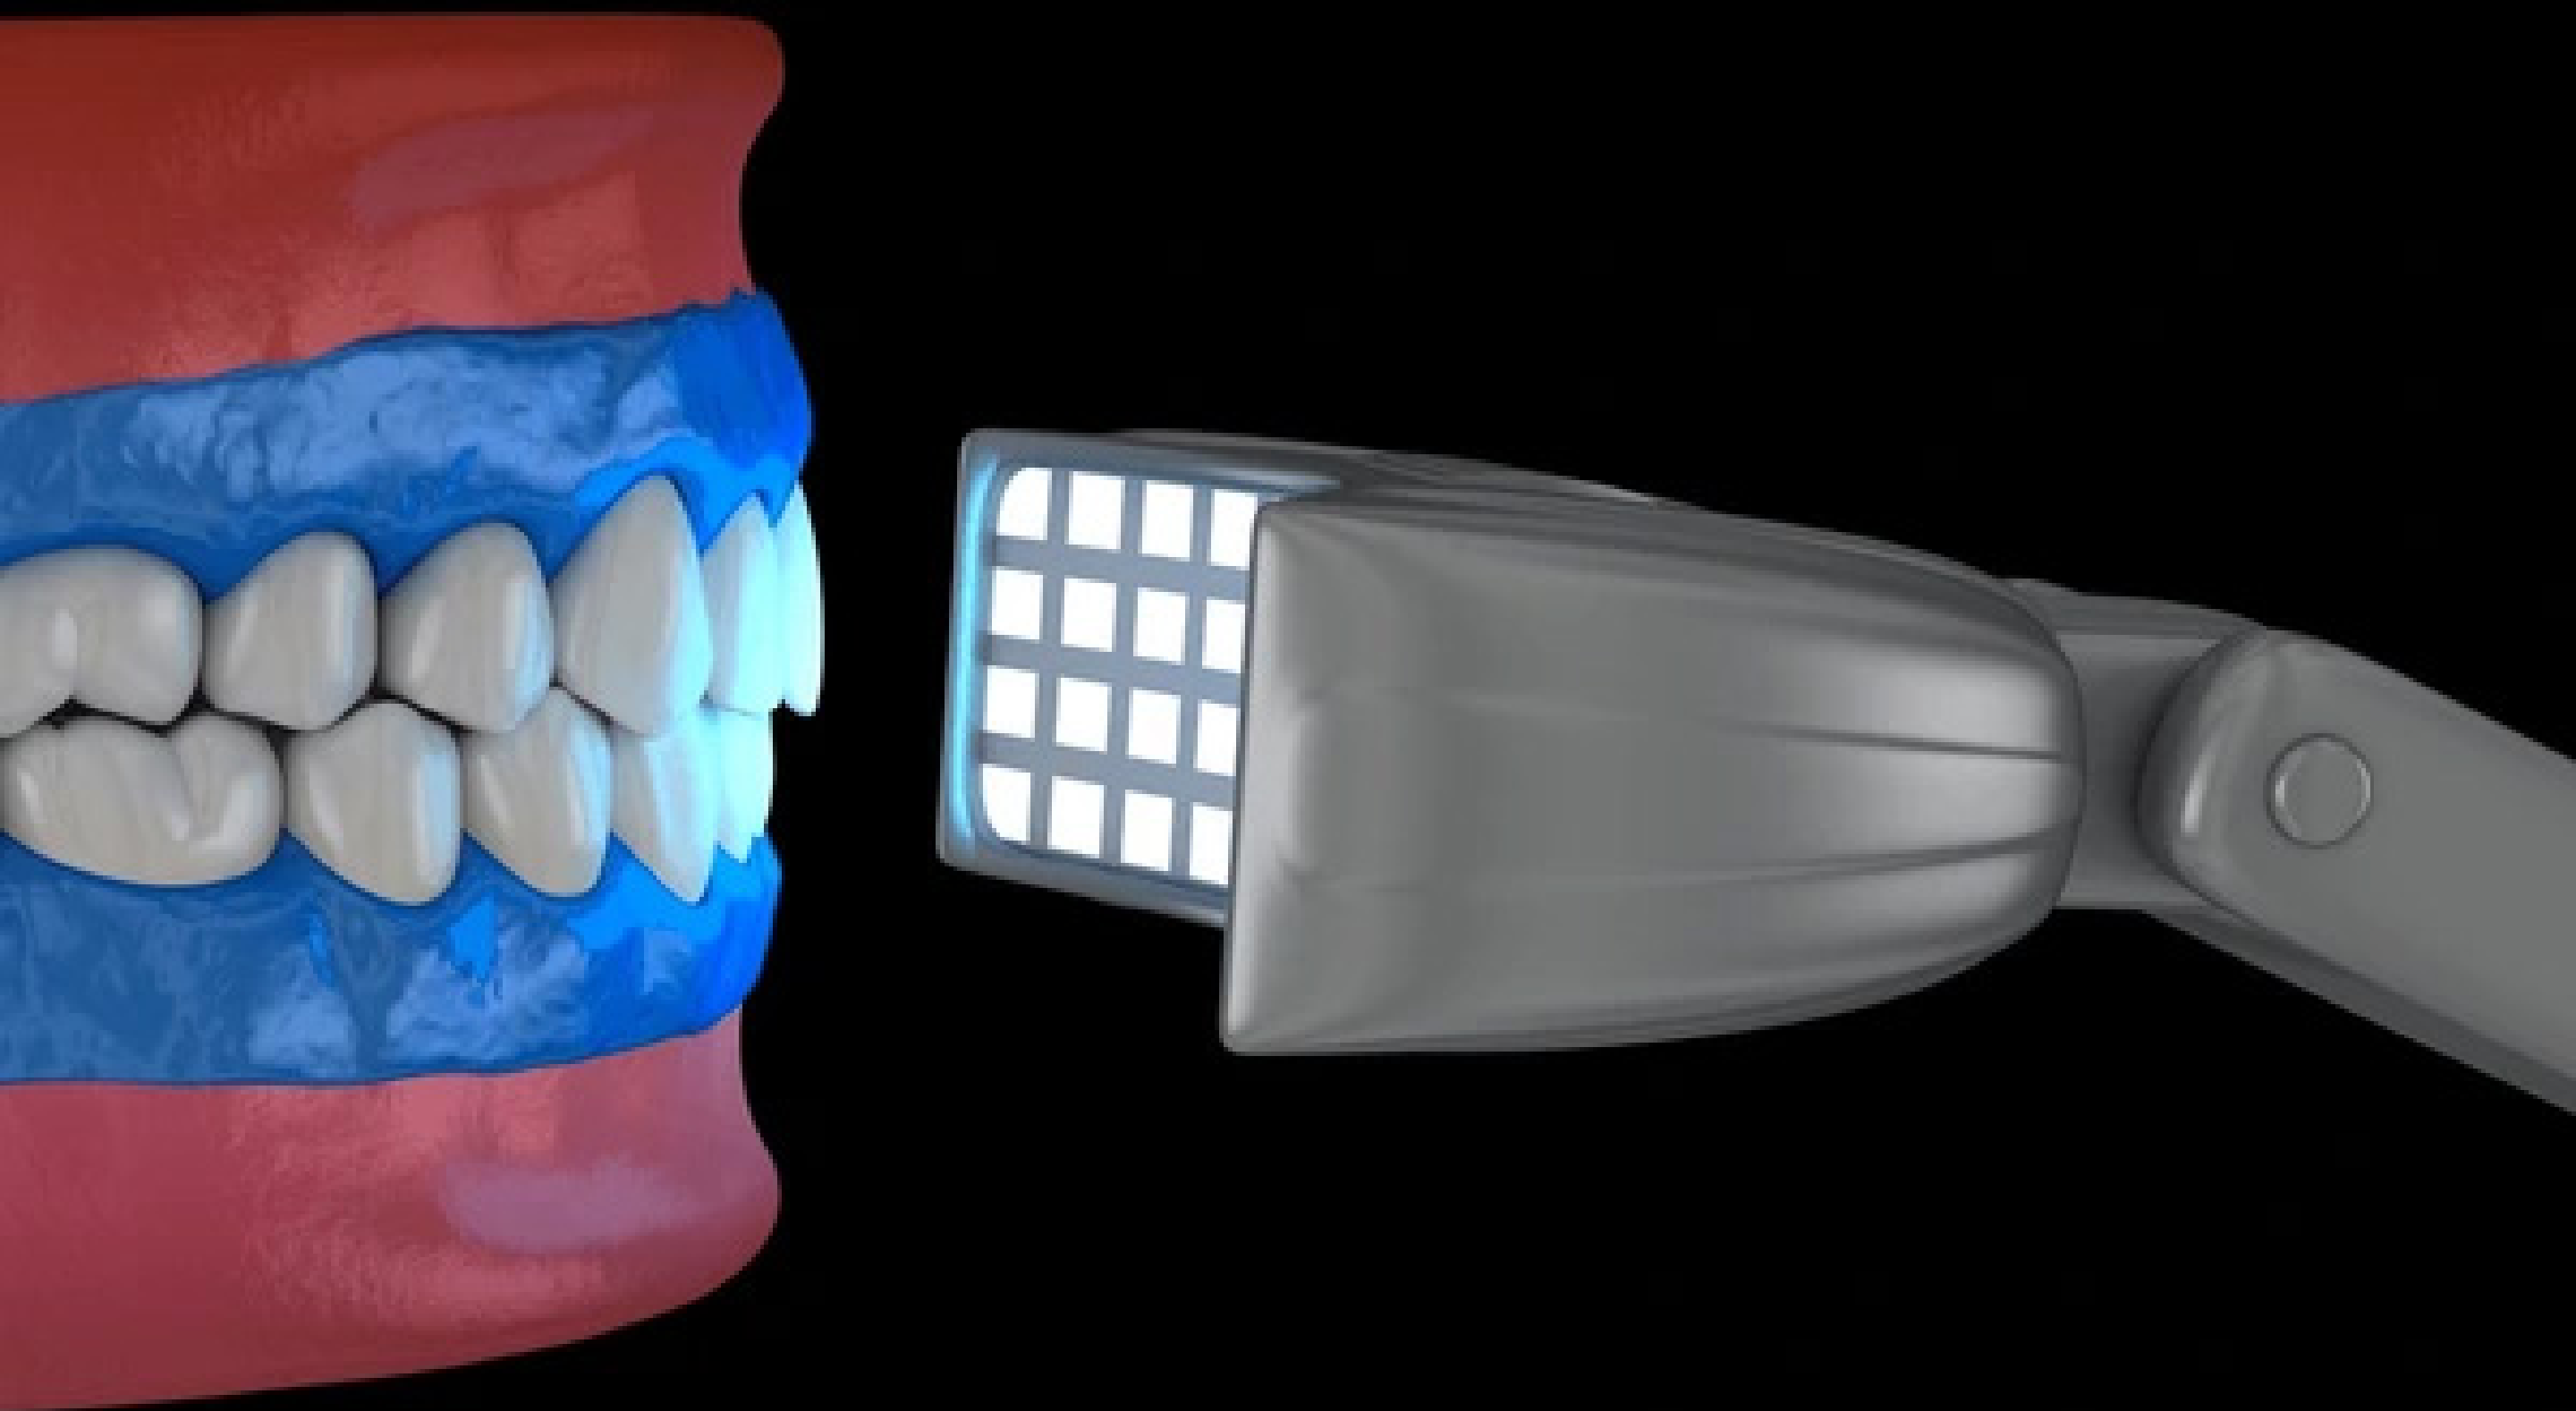

WHITENING

Teeth whitening with a lamp is an aesthetic treatment that uses a special light to activate the whitening gel applied to the teeth, achieving several shades of lightening in 1 to 3 sessions. It is fast, safe and effective, providing immediate results for a brighter smile.

REGULAR PRICE: \$250 USD EACH

NIGHT GUARD

REGULAR PRICE: \$60 USD EACH

The Night Guard is a custom dental splint that is worn at night to protect teeth from wear caused by bruxism (teeth grinding) or jaw tension. It helps prevent dental damage and relieves jaw pain.

It is very important that after having your design done, you use it every day to sleep.

Remember that we will give you your first night-guard after having your smile designed.
